

The list below details only some of the analyses that NEXTChem products are capable of measuring on-line.

	Petroleum/Chemical	Semiconductor	Mining	Metal Finishing	Waste Water	Paper/Textile	Food/Beverage
Chemical Measured							
ABC analysis							
Acid - free/total							
Alkalinity - free sugar							
Alkalinity - free/total							
Ammonia							
Ammonium Hydroxide							
Arsenic							
Ascorbic acid							
Boron							
Caustic							
Caustic - Refinery							
Chloride							
Chromium (VI)							
Copper							
Cyanide							
EDTA							
Ferrous Iron							
Fluoride							
Hardness - Total							
Hydrochloric Acid							
Hydrogen Peroxide							
Hydrogen Sulfide							
Hydroquinone							
Hydrosulfite							
Indigo							
Mercaptides Sulfide							
Nickel							
Nitrate							
Nitrite-Accelerator							
Ozone							
Phosphoric acid							
SC1 Clean							
SC2 Clean							
Silver							
Solder							
Sulfate							
Sulfite							
Surfactant - Anionic							
Surfactant - Nonionic							
Tin							
Titanium - Dissolved							
TMAH
