

Finance Options CiderLab

The CiderLab is available on a finance scheme^a allowing you to avoid capital outlay and spread your payments over 2 or 3 years. This provides you with a brand new CiderLab with minimal up-front expenditure and spreads the cost over time via fixed payments. The scheme will finance everything related to the purchase and installation of the analyser.

Payments are 100% deductible against taxable profits and can be structured to fit your requirements. The scheme reduces the drain on your working capital and is generally not classified as debt but as a running cost or expense.

A New Analyser Every Few Years

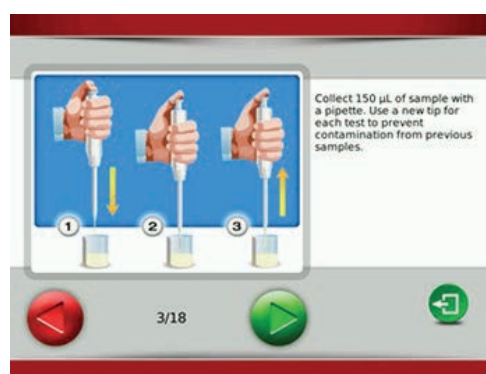

At the end of the scheme you have the option to buy the CiderLab for a nominal fee or renew the scheme and receive a brand new replacement analyser.

The CiderLab is available without a deposit at the following rates:

Term	Monthly Payment	Monthly Payment After Tax Relief
36 Months	£177.63 ^b	£142.10 ^c

CiderLab

The CiderLab is a fast, simple and reliable analyser for determining multiple parameters in cider and apple juice. Parameters include Acetic Acid, Alcohol Content, L-Lactic Acid, L-Malic Acid, pH, Free SO₂, Total SO₂, Total SO₂, Glycerol, Total Sugar, Glucose and Fructose and Total Polyphenols Index (TPI). Easy to use it requires no calibration or maintenance.

The CiderLab software guides the user through the testing process through clear graphical instructions via touch-screen LCD.

^a Subject to credit rating

^b Not including VAT

^c Assumes corporation tax at 20%
