

# Finance Options

## Veriflow

The Veriflow system is available on a finance scheme<sup>a</sup> allowing you to avoid capital outlay and spread your payments over 2 or 3 years. This provides you with a brand new Veriflow system with minimal up-front expenditure and spreads the cost over time via fixed payments. The scheme will finance everything related to the purchase and installation of the analyser.

Payments are 100% deductible against taxable profits and can be structured to fit your requirements. The scheme reduces the drain on your working capital and is generally not classified as debt but as a running cost or expense.

### A New Analytical System Every Few Years

At the end of the scheme you have the option to buy the Veriflow system for a nominal fee or renew the scheme and receive a brand new replacement analyser.

The Veriflow system is available without a deposit at the following rates<sup>b</sup>:

BrewPAL for <i>Pediococcus</i> and <i>Lactobacillus</i>		
Term	Monthly Payment	Monthly Payment After Tax Relief
36 Months	£257.20 <sup>c</sup>	£205.76 <sup>d</sup>

### Veriflow

The Veriflow range of rapid tests allows producers and processors to detect pathogens and spoilage bacteria. The tests are ultra-sensitive, easy to use and require no specialist knowledge or facilities.

The system combines the sensitivity of real-time PCR tests with the ease of use associated with vertical-flow-based tests. Using a unique DNA signature capturing technology it provides an effective and rapid system that minimizes sample preparation, speeds time to results and provides easy-to-interpret data.

Brewing	Food	Wine	Juices
<i>Pediococcus</i>	Salmonella Species	<i>Pediococcus</i>	<i>Alicyclobacillus</i> (ACB)
<i>Lactobacillus</i>	<i>Campylobacter</i>	<i>Lactobacillus</i>	
<i>Brettanomyces</i> <i>Bruxellensis</i>	<i>E.Coli</i> O157:H7	<i>Brettanomyces</i>	
<i>Dekkera/Brettanomyces</i>	<i>Listeria</i> Species		
<i>Megasphaera</i>	<i>Listeria</i> <i>Monocytogenes</i>		
<i>Pectinatus</i>	STEC		

<sup>a</sup> Subject to credit rating
