

# Thermo Scientific Orion Star A111

Basic pH benchtop meter

Thermo Scientific™ Orion™ Star A111 pH Benchtop Meters make it easy and affordable to take simple, accurate pH measurements.

Thermo Scientific Orion Star A111 pH Benchtop Meters combine simplicity with accuracy. A large LCD displays pH or mV readings along with temperature. Icons provide quick updates on battery life, electrode status and calibration information. Simple button layout and onscreen messages help with calibration and setup menu choices.

## Features and Benefits

- Large, informative screen clearly shows the main information, including pH or mV reading, temperature in °C or °F, meter mode, calibration information and power source
- Don't miss a reading—AUTO-READ™ locks in the stable reading on your screen and ready indicator alerts when continuous readings are stable
- Up to 3 point pH calibration with easy recall of calibration point and slope data

- Automatic recognition of USA/NIST and DIN buffers or manual option for custom buffer values
- Non-volatile memory holds up to 50 data points
- Included electrode arm and holder make it easier to maintain and place probes into samples
- Plug the meter into almost any power outlet with the included universal power adapter, or use four AA batteries (sold separately) for added flexibility
- The IP54-rated housing handles splashes and can be wall-mounted if table space is limited
- 3 year meter replacement warranty
